Lynn acknowledged that she is from Molokai and that she was taught by her Father the value of respect. Respect others and to have a passion. Respect allows us to work together. Respect each other when we do not agree. My family values have guided me. I have learned the most in 3 months what I have learned in the last 10 years. I learned protocol. When to speak, not speak, listen, etc. I had to learn to dress properly.

I learned that there are time lines that we operate under. We must comply with time lines to be effective.

I learned don't be afraid to ask a question. Being able to sit on the Agriculture Committee is a great experience as Ag is my passion. Being a farmer is my passion. Providing food for the people is my satisfaction. I am also honored to work on the Finance Committee. Funding for invasive species. Providing money for education. Supporting bills that will support agriculture. Making sure our CIP projects are funded. The finance committee is making sure we can support the Maui Memorial Hospital. Medical services are very important.

I am not anti-union or anti workers. I voted for the Healthcare Act. Health related issues are very important.

I am committed to do my best for the district and for the State. I remind myself to be true to my commitment, to Agriculture.

Roz said, although we lost a wonderful woman representative, we gained another wonderful woman who stepped right in and filled Mele’s seat.

XI. Roz called Lynn back to the stage to speak about Mele Carroll. Lynn expressed how Mele worked so hard for all of us. Lynn described how she received a call from Mele asking her to serve in her position. Lynn was shocked but accepted Mele’s request. There was a moment of silence offered to Mele.

Roz explained, the committee Mele served was helping people who can barely afford it.

XII. Roz called upon Alan Fukuyama to speak on behalf of former Board of Education Mary Cochran. Alan explained Mary was 1 of 13 children. Mary always expressed herself in very colorful words. She was a feisty woman. Education was her passion. She pushed hard for education. She had a crusted exterior but had such a soft heart.

Alan introduced Mary’s husband. A moment of silence offered for Mele and Mary.

XIII. Roz introduced the Honorable Gil Keith-Agaran, Hawaii State Senate Chair, Committee on Judiciary and Labor.
Gil came to the podium and changed his topic from what he had planned to speak about.

Democrats believe in these values Liberty, Social Justice and ongoing dialogue.

Gill thanked Speaker Joe Souki again for all that he does to advance bills that help our Kupunas.

He introduced a Bill dealing with domestic violence. He introduced a Bill which creates more transparency. He pushed for funding of a new building in Lahaina and Waihee Schools. He also allocated money to the Portuguese/Puerto Rican Heritage Hall.

Passed SB504 and HB830
Passed the ukulele is the State instrument
Passed the pa'u

HB 444 – allows Hotel tax money to be used for beach restoration

Called upon Speaker Joe Soukli to give the run down on what the Legislature did this session.

Mr. Souki congratulated Gil for his wonderful presentation. He acknowledged Roz Baker for being in the Senate for ages and for doing such a wonderful job. He stated that Kalani loves the aina.

Mr. Souki expressed his honor for serving the people. He talked about how the House and Senate worked very well together passing bills that help people.

Mr. Souki gave Justin Woodson a lot of credit for working so hard in difficult committees.

Mr. Souki expressed how proud he is of Lynn serving.

Mr. Souki said the House passed a lot of good bills. He elaborated about some of them.

Jails are full with prisoners. He compared the different laws and felony charges. He said Felony charges stay with you for life.

XV. Democratic Chair Stephanie Ohigashi congratulated the new officers. She thanked the State Legislators and the Maui County Council for their hard work

Reviewed what has happened in the last month.

Steph asked the Central Committee to stand as the Central Committee who represents us at the Democratic Convention.

Steph introduced Alex Wheeler who handles the State Democratic party office and website. Alex will probably answer the phone when you call. Alex presented Troy Hashimoto with a certificate of appreciation.
Roz called Maui County Democratic Chairman Troy Hashimoto to give his closing remarks.

Troy expressed his appreciation for everyone’s help and conveyed his personal thank you’s.

He asked everyone to stay involved and to encourage your family and friends to join the party. We have two (2) years ahead of us. Theirs is a lot of hard work ahead, but we must stay focused on our work at hand.

Resolved, That the Hawai‘i County Democrats vigorously supports the introduction and passage of a bill in the 2017 Legislative Session that will ban conversion therapy outright in Hawai‘i; and be it

Resolution 2016 – 4

Promote Family Savings

WHEREAS, nationally in 2013 Personal Savings as a percent of Disposable Personal Income was less than 5% while mortgage and consumer debt payments was at double that rate; and

WHEREAS, more than 40 percent of American households lack the savings to cover basic expenses for 3 months if an unexpected event leads to a loss of stable income; and

WHEREAS, 71 percent of children born to high-saving but low-income parents move up from the bottom income quintile over one generation compared with only 50 percent of children from similarly low-income households whose parents do not save; and

WHEREAS, several states now allow the provision of “prize-linked savings” (PLS) accounts to promote savings by offering participants chances to win prizes based on deposit activity (the more you save the more chances to win) with the savings never at risk as a safe, regulated financial product of credit unions; and

WHEREAS, these PLS accounts have proven to attract people who previously did not save and those with low incomes—helping them build financial safety nets for themselves for future financial needs and as an alternative to costly credit; and

WHEREAS, on December 18, 2014, President Obama signed into law Pub.L. 113-251 American Savings Promotion Act to “provide for the use of savings promotion raffle products by financial institutions to encourage savings … in which the sole consideration required for a chance of winning designated prizes is obtained by the deposit of a specified amount of money in a savings account or program” by exempting such programs from from federal laws against illegal gambling and racketeering; and

WHEREAS, such promotions are not gambling because the saver does not risk any losses or pay any fee to participate and the saver retains the entire amount of his or her savings; and

WHEREAS, some banks and credit unions in Hawaii may still not participate because of State statutes governing gambling, raffles and lotteries unless and until those State statutes are also modified to exempt these savings promotion raffle products; and

WHEREAS, the Democratic Party of Maui County has supported the efforts of our people to improve their standards of living and hopes and dreams for their children; now therefore,

BE IT RESOLVED that the Democratic Party of Maui County supports the concept of prize-linked savings; and

BE IT FURTHER RESOLVED that the Hawai’i State Legislature introduce and pass legislation to allow credit unions and banks in Hawai’i to offer such prize-linked savings accounts consistent with the national American Savings Promotion Act; and

BE IT FURTHER RESOLVED that copies of this resolution be forwarded to the Democratic Pary of Hawai’i for consideration at the 2016 State Convention, to the Governor, to all members of the Hawai’i State Legislature, and to all members of the Hawai’i Congressional delegation.

(2) Balloting for the presidential poll shall be open for at least thirty (30) minutes or for the duration of the Precinct Club meeting, whichever is greater. When more than one (1) Precinct Club votes at a common location, the registration and presidential voting process shall be held in common for the voting period of the preference poll immediately prior to the beginning of the precinct meetings.

(2) Balloting for the presidential poll shall be open for at least thirty (30) minutes or for the duration of the Precinct Club meeting, whichever is greater. When more than one (1) Precinct Club votes at a common location, the registration and presidential voting process shall be held in common for the voting period of the preference poll immediately prior to the beginning of the precinct meetings.

**RATIONALE:**
The point of this Rules amendment is to ensure no one is disenfranchised and volunteers’ as well as participants’ time is respected. The rationale for changing the Bylaws is to make the Presidential Preference Poll run more effectively during years with high voter turnout. In 2016, our polling place for District 12 had 1201 people vote. Voting was publicized to begin at 1 pm and last until at least 1:30 pm. Although we began credentialing voters starting at noon, there was still an overwhelming line. Over 1000 people arrived all at once creating long lines, stress and confusion. In addition, a number of voters arrived after we began counting votes. A clearly advertised and extended voting period, would allow a more consistent flow of voters. Volunteer hours were problematic because we did not know how long to anticipate they would be needed. Publishing a specific time for precinct elections will encourage participation from all willing individuals. This will allow volunteers to participate in precinct meetings without interfering with their volunteer responsibilities. The current rules are adequate for accommodating a small number of voters but proved inadequate, open-ended and non-specific for the increased turnout during 2008 and 2016. We have not suggesting amending the rules during years with an incumbent president because it is unlikely that there will be a large turnout and the current rules are sufficient in that circumstance.

This proposal affects precinct clubs, district councils, county committees, and the state central committees.
2016 Maui County Democratic Party Affirmative Action Plan

The Democratic Party of Hawaii has a long and proud history of defending Civil Rights and expanding opportunity for all Americans. Hawaii Democrats have fought to end discrimination in all forms—including discrimination based on race, sex, ethnicity or national origin, language, religion, sexual orientation, gender identity, age, or disability. The effective use of all forms of media, telecommunications, including but not limited to the use of email, social media, teleconferencing, community media, training videos, surveys and polling can be a useful tool in creating the environment of full participation.

It is the policy of Maui County Democrats to provide equal access to the activities of the Party without regard to race, color, religion, sex, national origin, age disability, marital status, veteran's status, sexual orientation, genetic information or any other protected characteristic. This policy relates to all phases of participation, including, but not limited to, Precinct Meetings, Convention, OCC meetings and for the use of all facilities, and participation in Party-sponsored activities. The Maui County Chair and the Maui County Affirmative Action(s) have been assigned to direct the establishment and monitor the implementation of any Affirmative Action procedures to guide our affirmative action program.

To accomplish those goals we recommend the adoption of the Affirmative Action Plan 2016

AFFIRMATIVE ACTION PLAN 2016

The Chair of the Maui County Committee of the Democratic Party of Hawai‘i shall implement the following steps towards development and implementation of a comprehensive program to increase participation and representation of all of the diverse peoples of Hawai‘i in the Party, and the elimination of barriers to participation by members of under-represented groups.

1. Data gathering. A survey will be conducted using the list of registered delegates from the 2016 Maui County Convention. The survey information will be gathered to be used in future discussion and planning. It shall include information on an affirmative action survey for all convention delegates, to elicit voluntary self-identification of the delegate’s race, gender, sex, sexual identity, ancestry/national origin, disability/need for accommodation, age, and other relevant self-identification. The anonymous survey results will be used as a resource for affirmative action discussion and planning.

2. Diversity, equal opportunity, and nondiscrimination in leadership, committee appointments, and membership. The Maui County Committee of the Democratic Party of Hawai‘i will continue to make good faith efforts to achieve diversity, equal opportunity, and nondiscrimination in participation at every level of party activity.

3. Membership recruitment efforts shall continue to focus on bringing in new members into the Democratic Party, while respecting the contributions of long time members and retaining their active participation. At the County, Region, and Precinct levels, selection of members for committees and leadership positions shall be made in a nondiscriminatory manner, consistent with the Party's commitment to equal opportunity and diversity, and this affirmative action plan.

4. At the County, Region, District, and Precinct levels, concerted efforts shall be made with elected officials and office holders to expand and develop a diverse pool of future leaders. Such efforts may include, but are not limited to, development of mentoring, leadership, and essential competencies relevant to continued success of the Democratic Party and its commitment to inclusive practices, recognizing the idealism and readiness for leadership, responsibilities, while concurrently imparting the history, values, and skills that current leadership has to offer.

5. The Maui County Committee of the Democratic Party of Hawai‘i shall continue to provide for full and equal opportunity for participation of persons with disabilities in all Party activities. No otherwise qualified person with a disability shall be denied participation in Party programs or activities on the basis of his or her disability.
For the purpose of this plan, "persons with disabilities" means persons who
● have a physical or mental impairment which substantially limits a one or more major life activities, ● has
a record of such impairment, or
● is regarded as having such impairment.

6. Reasonable accommodation or modification shall be provided upon the request of a person with a
disability, unless the reasonable accommodation or modification would impose an undue hardship on the
Party. Reasonable accommodation or modification could include changes to policies, practices, or
procedures necessary to allow a qualified person with a disability to participate in Party activities.

7. Participation in Party activities shall be encouraged and promoted by giving timely and effective notice
of meetings, and information regarding the delegate selection process, nomination and election
procedures to members.
We Democrats are the oldest political party in America and the youngest in spirit. We will remain so, because we believe we can use the tools of government to improve the lives of all of us.

Time and again, for almost two centuries, the Democratic Party has made government work – to build and defend a nation, to encourage commerce, to educate our children, to promote equal opportunity, to advance science and industry, to support the arts and humanities, to restore the land, to develop and conserve our human and natural resources, to preserve and enhance our infrastructure, to relieve poverty, to explore space. We have achieved difficult and vital goals.

We recognize that the capacity of government is limited but we regard democratic government as a force for good and a source of hope. At the heart of our party lies a fundamental conviction, that Americans must not only be free, but they must live in a fair society. We believe it is the responsibility of government to help us achieve this fair society.

A society where all people can find jobs in a full-employment economy and where those jobs pay a living wage with safe working conditions. Because economic justice for working families is essential for the realization of a democratic society, we will work to establish:

- A minimum wage well above the poverty level, with no tip credit toward minimum wage.
- Living wage and benefits for farm and rural workers
- Fair economic and trade policies which protect human rights, workers rights, unionization and environmental protection
- Protection of small businesses and independent farmers
- Strict enforcement of union contracts and worker rights to unionize, to strike without job loss, to have a safe workplace, to mediate and arbitrate disputes, to have freedom of speech and association, and repeal of the anti-labor Taft-Hartley Act by 2012 at the latest.
• Fair representation and democracy within unions;
• Automatic recognition of unions based on card checks
• Automatic dues payment to unions
• Full funding for enforcement of labor standards, strict child labor and occupational health and safety laws.
• Strong protection for whistleblowers (including Federal employees)
• Responsible bidder language in all public financed works on fair wages, health, retirement and training, with 15% set asides for state certified apprentices.
• Repeal of all “right to work” laws.
• Strict laws against employers requiring credit checks or social media passwords for employment purposes.
• Strict laws against off shore tax and unionization avoidance.
• Strict laws against profiteering, predatory lending, and misuse of private data.
• Preservation of publicly funded social security and no privatization of essential government services
• Tax credits for early childhood development programs
• Fair, progressive taxation at state and federal level
• Tax credits for business providing healthcare, pensions and childcare
• Protection of un-documentated workers from prosecution, deportation or job loss for reporting an employer for violating labor laws.
• Workers reporting employer labor violations to receive a portion of any fine assessed on employer.

We must become a society where we consider ourselves stewards of the air, land, water (wai) and ocean. Where our natural resources are not only conserved but where we repair the damage that has been done and leave our children a legacy and the hope of a healthy planet. The environment is the public trust and care of our “commons” is one principal of social justice. We must prevent the unsustainable exploitation that will damage our common resources and have a negative impact on the economic benefits of a healthy ecosystem(s). To achieve this we will:

• Implement the principles of our Democratic party founders who included the words “preserve, protect and enhance our environment” in our unique Hawaii State Constitution.
• Rebuild, protect and refurbish our parks and public resource infrastructure.
• Fairly allocate our water resources to benefit humans, flora, fauna and sustainable agriculture.
• Insure our watersheds remain healthy as they are our most important economic resource.
• Conserve and fund legacy lands, create state and national seashores.
• Expand environmental education and career opportunities that we may instill a sense and duty of stewardship to our children.
• Adequately fund our resource protection divisions such as DOECARE and other conservation and shoreline management agencies.
• Adequately fund invasive species control agencies, agricultural inspection departments.
• Enhance marine conservation zones.
• Restore public trust resources, parks and the ability to have safe, clean, outdoor camping experiences.
• Treat our public resources as an economic beneficial interest worth protecting as environmental capitol to be saved and enhanced. If protected, enhanced and restored, these resources will create a credit balance in sustaining our Island ecosystems and planet for future generations.

Finally, Hawaii must end its addiction to imported oil. To accomplish this we can model the relationships between labor and the green economy in building a new energy future. Labor and Environment are bound by the concept of social justice. A healthy environment is one that benefits human kind as much as a healthy and fair labor policy benefits the worker. Green jobs will create a sustainable future. To achieve this we will:

• Create a new green energy future.
• Establishment of a Clean Economy Bank that will lend only to U.S. Based companies who require fair labor standers and living wages for workers in clean energy jobs.
• Establishment of a state wide power grid that will provide low cost clean energy to all households.
• Increase our use of sun, wind and wave energy. The 250 million we spend a year on oil imported from Indonesia could better be spent on the construction of solar energy plants.
• We will phase out diesel oil electric plants. We must invest in agriculture research to grow less water consumptive biofuel crops.
• We will encourage the use of photo voltaic electrical systems.
• We will invest in green energy and power by encouraging feed in tariffs that result in a fair price for renewable energy.
• We will decouple our electric companies so that they no longer are competitors for new renewable energy companies but managers of the electrical transmission lines and grid.
• We should provide funding for the public utilities commission to adequately and effectively work with energy utility dockets for energy independence.
• We will set goals and pursue federal funding to encourage renewable energy independence so that Maui and Hawaii can be the sustainable renewable energy model to the world.

We also believe in:

• A society where taxes are clearly based on ability to pay
• A society where the equal rights of women are guaranteed in the Constitution including the right to make their own reproductive decisions without interference of the government.
• A society where we support the rights of the LGBT community before the law, including equal marriage rights, both at the state and federal level.
• A society where both public and private discrimination based upon race, sex, age, color, creed, national origin, religion, ethnic identity, sexual orientation, economic status, philosophical persuasion, or physical disability are condemned and where our government moves aggressively to end such discrimination through lawful means.
• A society where we recognize that the strengthening of all types of families and the protection of children are essential to the health of the nation.
• A society where the elderly and the disabled can lead lives of dignity, where Social Security remains an unshakable public commitment and affordable health care is available to all citizens
• A society where quality education, proper nutrition, quality medical care, affordable housing, safe streets and a healthy environment are possible for every citizen
• A society where the livelihoods of our local food farmers are as stable as the values they instill in the American character
• A society where a strong national defense is a common effort, where protecting human rights and lives is a basic value of our foreign policy, and where we ensure that future by ending the nuclear arms race.

This is our purpose and our promise.
Proposed edit to add the following statement to the section of the platform relating to, “We must become a society where we consider ourselves stewards of the air, land, water (wai) and ocean” to state:

“Support agricultural home rule, including the opposition to any right to farm legislation that pre-empts counties from making laws about local agriculture and pesticide use.”

Supporting arguments:
Over the last few years, it has become clear that the people of Maui, and the people of all counties in Hawaii, want local control of agriculture. We see "right to farm" legislation come up in every legislative session and it is strongly opposed every single time. Right to farm legislation is introduced for the sole purpose of taking power away from the people, and centralizing it in Honolulu, where the people's influence is diluted by corporate interests.

"Right to farm" legislation clearly benefits corporations, industrial agriculture, and the agrochemical industry, at the expense of the community.

Platform Amendment 2016-BB
Relating to agricultural home rule
Amendment to State Party Platform

The 2014 platform states:
"We re-affirm a policy of agricultural home rule as it relates to zoning for each county"

Proposed edit:
"We re-affirm a policy of full agricultural home rule, including the opposition to ANY right to farm legislation that pre-empts counties from making laws about local agriculture and pesticide use."
